INDEX.

A

ABORITUM BRITANICUM, review of it, 372.
ADAMS, JOHN QUINCY, anecdotes of, 348.
ADDRESS to the Tobacco Planters of the U. States, 69.
ADVICE to a young lady, 47.
AGRICULTURE, as a science, 83. Principles of, 83. Practical improvements in, 101. On the neglect of, by the Government, 345. Advantages resulting from the establishment of the British Board of, 260. Extracts from the report of the committee on, in the Maryland Legislature, 356.
AGRICULTURAL Chemist, on the appointment of one, 356. Papers, value of, 50, 227, 242. Report of the Commissioners for the State of Mass. on Wheat, 10, 19, 34, 46, 50, 60. Soirees in Boston 316, 326, 333. Spirit of Mississippi, 201. Statistics, 355.
AGRICULTURAL FAIRS, at Georgetown, Mass., 186. at New Haven, Conn. 186.
AGRICULTURAL SOCIETIES, number of, in France, 14. Antigonish, list of experiments recommended by, with directions for making them, 78, 93, 115. Of Clark County, fair and sale of hogs, 185. Of Fredericksburg, Va., address to, by James M. Garnett, 238, 245. Maryland State, notice of their First Fair, 113; account of their Annual Show and Fair, list of officers, &c. 187. Of New Castle, Show and Dinner, 163. Pee Dee, S. C. semi-annual meeting of, 197. Annual meeting and distribution of premiums, 362. Philadelphia County, address to, by N. Biddle, 181, 187. Of Prince George's Co. Md. list of officers, 177, favorable notice of, by the editor, 265. Of Queen Anne's, Md., address to by Wm. Carmichael, 290. Royal, of England, account of its Second Annual Meeting, 129. Of S. Carolina, proceedings of, reports and distribution of premiums, 238; address to, by Gen. Geo. McDuffie, 285, 293. Of St. Johns (S. C.) Colleton, extracts from the report to, on analysis of soil of Edisto Island, 172. Worcester, persons present at the Show, and number of animals exhibited, 265.
ALDERNEY COWS, their qualities as milkers, &c. 292.
ALLEN, A. B., on breeding horses for the purposes of utility, 77; his notes of an agricultural tour, 236; on the culture of the Sugar Beet, 412.
ALMOND, Languedoc, growth of the, in New York, 235.
AMERICAN INSTITUTE, Thirteenth Annual Fair, 148.
ANNIVERSARY ORATION, read before the State Agricultural Society of South Carolina, by Gen. Geo. McDuffie, 285.
ANNE ARUNDEL County, geological survey of, 36.
ANNUAL PRODUCTION of the U. States, 371.
ANNUAL REPORT of the Maryland State Geologist, extracts from it, 28, 36, 43, 62.
ANCHOR WORM, 65.
APPLE AND PEAR TREES, on growing by grafting upon the roots, 155.
APPLES, new mode of preserving, 63, 118. To keep for winter use, 208. To make molasses from, 214. To keep for spring use, 250.
AMISTAD, decision on the case of, in the Supreme Court, 348.
ARMY WORM, ravages of the, 18. Experiments and remarks on, by A. Henderson, 190. Natural history of, 236
ARTICHOKE, Jerusalem, on the cultivation of, 169, 235.
ASHES, Wood, on the use of as manure, 35, 365.
ASPARAGUS, improved and cheap method of cultivating, 105, 205 To make soup of, 55. On the culture of, by the Editor, 161. On gathering, 413.
AYRSHIRE CATTLE, value of the, 49, 50.

B

BACON, how to have it prime, 27. Recipe for curing, 252.
BAKEWELL, Robert, of Dishley, memoir of, 74.
BALM BEER, how to make, 31.
BALTIMORE COUNTY, geological survey of, by Prof. Ducatel, 43.
BANK worth having, 150.
BANKS of loan and discount, by the Editor, 138.
BARLEY, growth of, in Chester Co. Pa. 51. On the cultivation of, 324, 354.
BARNEY, John, on preparing the Sugar Beet for cattle, 153. On the diseases of sheep, 268.
BARN YARD, when to put in order, 113.
BATHS, warm and cold, 87.
BEANS, best kind of pole, 276. Directions for planting, 292. From Cuba, 371.
BEES, time to take up, 149, 193, 219.
BEE HIVES, how to clean, 113.
BEE MOTH, to prevent their infesting hives, 35.
BEEF, Hamburg method of smoking, 267.
BEETS, rich land not always the best for, 26. Notice of the principal kinds cultivated in France, 122. As food for cattle, 153, 213, 307. Preparation of the ground for, 324.
BEET SUGAR, manufacture of, near Baltimore, 49. Process of making, by J. C. Booth, 92. Offer to engage in the manufacture of, by S. M. Helm, of Kentucky, 148.
BEEVES, on fattening, 212.
BERKSHIRE HOGS AND PIGS, various notices of, 66, 67, 125, 142, 146, 153, 180, 221, 258, 275, 291, 341, 350.
BIBLE, description of the, 100.
BIDDLE, Nicholas, his address to the Philadelphia County Agricultural Society, 181, 187. Letter from, to the Editor, 195.
BILL OF FARE, of the dinner of the Royal Agricultural Society of England, 131.
BIRDS, useful kinds of, 154.
BITUMEN. 6.
BLACK TONGUE in horses, remedy for, 63.
BLAST, or Blight, explanation of, 6.
BLEEDING, value of in the treatment of cattle, 118.
BLIGHT in Pear Trees, cause of, and remedy for, 142. Remarks on, and mode of preventing, by J. A. Lazell, 205. Do. by J. Smith, 235.
BLOATING in Cattle, cure for, 143.
BLOODED STOCK, failures in the sale of in Tennessee, 145.
BLUE GRASS, on the culture of, 282, 308. Gen. Harrison's opinion of, 314. Value of, to graziers, 380.
BOILING MACHINE, newly invented, 185.
BOOK FARMING, 362.
BOOTH, J. C. on the manufacture of Beet Sugar, 92.
BORER, the, 27.
BOTANICAL Gardens of Calcutta, 150.
BOTS IN HORSES, to prevent the attacks of, 37, 73. Cures for, 51, 197, 203. Probable cause of and remedy for, by Joseph Grant, 118. Rye heads, a preventive of, 134.
BOWERS, J. on the use of poudrette as manure, 274.
BOWIE, Thomas F. his remarks at the Convention of Tobacco Planters, 54, 60.
BREAD from Beet root, 18.
BREEDING, proper time for putting stock to, 84.
BROCOLI, cultivation of, 190.
BUCKWHEAT, 82. Mode of harvesting, 157. Experiment in the culture of proposed, 386.
BUEL, Judge, on Grasses, 362.
BUFFALOE BERRY, or Shepherdia, 278, 371.
BULL, marks of a well made one, 171.
BUTTER, to prevent the taste of turnips in, 25. On making, 158. Method of making in Holland, 196. For making winter, 254, 270. Results of the various kinds of feed on the quality of, 307.

C

CABBAGES, protection of, against the grub worm, 21. Preservation of, 134. Transplanting, 154. Cultivation of, 190, 191, 293. To prevent clubbing in the roots of, 378. To destroy lice in, 45, 78. The Bellandean, 154.
CALICO PRINTING in the U. States, 410.
CALOMEL, use of in diseases of hogs, 203.
CALVES, on rearing, 86, 99, 203, 317. Remedy for scours in, 118. To raise by hand, 167. Running with cows, 244.
CANADA THISTLE, to destroy, 173.
CANKER WORM, to prevent the ascent of the, 213.
CARMICHAEL, Wm. on the various breeds of cattle, &c. 284. On green sward, orchard, and other grasses, 308. His address to the Queen Anne's County Agricultural Society, 230. On the construction of threshing machines, 316.
CARNIVOROUS PLANTS, 260.
CARROLL COUNTY, Md., agricultural resources and condition of, 62.
CARROTS, culture of, 53. Large, 250. Time of sowing, 292.
CASTOR, General, notice of his farm near Frankford, Penn. 85.
CATTLE, choice imported, 9, 17, 488. Cure for mange in, 43. Value of the Ayrshire, 49, 341. Sale of Durhams—pedigrees of valuable, 68. Sale of, by the Fayette Importing Company, 74. Murrain in, 102, 118. Value of blood-letting in the treatment of, 118. Diseases of, and cure for, 125, 133. To cure bloat in, 143, 317, 372. The Creampot breed of, 117, 316. Sugar Beet, as food for, 153, 213. Hereford and Short horns, 173. Cure of a severe case of hoven, 203. Color of imported Short horns, 218. Remarks on the Hereford, 218. On the Durham and Devon breeds of, by the Editor, 220. Pedigrees of Durham belonging to Dr. Hoffman, 226. Sir John Sinclair's answers to certain queries on matters connected with, 228. Native, of New England, 236. To relieve when choked, 237, 317. Preparation of fodder for, 262. Hon. Henry Clay's opinion of the Hereford, 267. On the various breeds of, by Wm. Carmichael, 284. Do. in answer to by "E", 306. Durham Short Horns, 306. Ayrshire and Durham, 333. Stall-feeding, 334. Importation of, in 1817—improved Short horns, 348. Origin of the white, with red ears, 388. General remarks on the various breeds, by an Eastern Drover, 389.
CATERPILLARS, in cotton fields, 114.
CATS, serenade of, 198.
CATTLE YARDS, on the construction of, 155.
CAULIFLOWERS, culture of, 153, 190, 293.
CELERY, culture of, 59, 191, 293.
CEMENT, for glass, wood, &c. 89.
CENTRIFUGAL DISSEMINATER, for scattering lime, plaster, &c. (with an engraving,) 397.
CHEAT, remarks on, by James Sellers, 21.
CHEESE, to prevent maggots in, 211. Directions for making, 254.
CHEMISTRY of Agriculture, 411.
CHESNUT, on the culture of the, by Michaux, 157.
CHICKENS, on raising and hatching, 30, 35, 47.
CHIMNIES, to stop when burning, 373.
CHINCH BUG, its habits, modes of attack, &c. 43. To destroy it, 73. Ravages of, in North Carolina, 133.
CHISHOLM, Robert, his experiments in cotton ginning, 92.
CHURN, Galt's, (with a cut,) 190.
CISTERNS, value and economy of, 125.
CLAY, Hon. Henry, on Hereford and Durham Cattle, 267.
CLAY, Henry, Jr. letter from, on the importation of mules and asses, 206.
CLAY FARM, management of one, 283.
CLOVER, method of sowing the Red, use of for hay, &c. 4, 85, 347. On sowing, in corn, 85. Bokhara, 414. Long rooted, and White, (or Dutch,) 347.
CLOVER SEED, sowing on wheat fields, 324. Directions for cleaning, 139.
CLOVER FIELDS, on plastering, 353.
COAL ASHES as a manure, 45.
COB MEAL, value of, for fattening cattle, 139, 251, 267, 326.
COCOONERY, Gen. Gillespie's, in South Carolina, 94.
COCKRILL, Mark R. on Sheep, 227.
COKE, Mr. of Holkham, (England,) character of, 115.
COLIC, in horses, remedies for, 17, 51, 189. In Neat Cattle, remedies for, 125, 203, 241.
COLTS, how to break, 94. Cure for distemper in, 51.
COMMERCE, with Sardinia, 38. Of the United States, 145. 295.
COMPOSTS, report on, to the St. Johns, (Colleton,) S. C. Agricultural Society, 226.
COMPOST HEAPS from liquids and other substances, Essay on, by James Dixon, 260.
COMPARATIVE Expense of cultivating roots, 53. Value of horses, mules and oxen, 381.
CONFORMATION of a horse, rules to become a judge of, 102.
CONSUMPTION, rules for preventing, 175.
COOKING FOOD for animals, 209, 397.
CORN, on the cultivation of, 4. Do. by W. Williams, 17. To prevent destruction of, by crows, 42. On planting, by H. H. Hawkins, 52. Harvesting, 53. Ploughing, hilling, &c. in dry weather, 70. To destroy chinch bug in, 73. On securing the crop, and value of the blades and grass, 76. On selecting seed, 102. Rule for measuring, 134, 250. Notices of Early, 149. On gathering, &c. by the Editor, 161. On grinding in the ear, 164. Improved kinds of, 165. Experiment in the cultivation of, by Geo. W. Williams, 195. On cutting up, as practiced in Kentucky, by S. D. Martin, 205. Great crop of, in Mass. 218. Large ear of, 236. Effect of Poudrette as manure for, 252. Great yield of, 309. Preparation of ground for, 324. On the advantage or disadvantage of suckering, 337. On the cultivation of—preparation of soil and seed—time of planting, &c. 353. Mode of planting—
